Overview:

The PMD-100CD is a high-performance professional CD player with USB and 3.5mm AUX inputs designed for the commercial installation market. The PMD-100CD has features normally found on higher-priced players, such as Front Panel Lock, Power On Play, direct access to tracks, memory of settings after loss of power, and balanced XLR output. Ten dedicated buttons on the front panel provide instant access to tracks while a rotary/push knob offers even greater navigation flexibility. This player is perfect for retail, education, and hotel/conference applications.
