

Pod Stand 1

Key Features:

- Broadcast-style boom assembly
- Two adjustable boom sections
- Surface clamp with set screw for boom assembly
- Integral 10-foot microphone cable
- Rugged, anodized aluminum build

Overview:

The Pod Stand 1 is perfect for desktop podcasting, on-air, or voice-over applications. The stand can be clamped to the desk surface, and its two boom arms are adjustable to any position or angle. An added feature is the integral microphone cable, which runs inside the stand for a clean, professional appearance.

Specifications:

- Two contiguous boom sections with t-bar locking screws
 - First section 17.25" (438mm)
 - Second section 15.5"-21" (394-533mm)
- Surface clamp with t-bar locking screw
 - Adjustable for surfaces up to 2.25" (57mm) thick
 - Boom assembly socket with wing nut locking screw
- Integral 10' (3m) microphone cable
