

DBI-2 DOORBELL INTERFACE

KEY FEATURES

- **Plays Doorbell Chimes through MultiZone Systems** — Adds convenience and security to any Niles MultiZone System and other brands of multizone controllers with paging inputs.
- **Customized Sounds** — The DBI-2 includes four different doorbell sounds: two versions of the standard doorbell chime sound plus two versions of the Westminster chime. Two custom chimes can also be recorded for a personalized doorbell sound.
- **Dual Doorbell Triggers** — Two doorbell chimes are triggered either by contact closure or by 3V-30V voltage.
- **Audio Paging Input** — Connect the DBI-2 to the output of a telephone paging system
- **Chime and Audio Level Adjustments** — The sound volume for the chimes and audio paging are independently adjustable allowing you to set the volumes to be equal.
- **Native Support for Illuminated Doorbell Buttons** — Adds convenience and security.

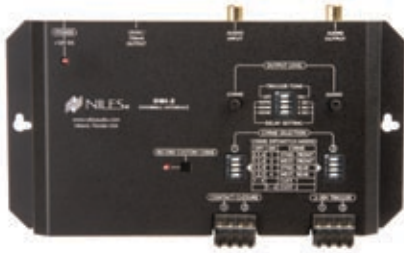

Specifications

DBI-2

Doorbell Interface
